

Fifth Grade Will Hike to Camp

Mrs. Heather Wingfield with her 5th grade class of 2009-2010

In mid-May, Lakeside's 5th graders will attend Walden West Science Center where they will live and learn outdoors for five days and four nights. Walden West's science camp program includes hands-on lessons in the natural sciences so that students develop an understanding of and sense of appreciation for the environment. This year, instead of being chauffeured to camp by parents, Mrs. Wingfield's 5th graders will hike several miles from Lakeside school via Lake Ranch Reservoir to Walden West near Sanborn County Park in Saratoga.
